## ANALYSIS OF HEALTH HAZARDS FACED BY RAG PICKERS ON CHENNAI CITY USING FUZZY RELATIONAL MAPS

*W.B. Vasantha Kandasamy, P. Elumalai and Mary John*

In this paper we mainly study and analyze the health hazards faced by the rag pickers of the Chennai city using fuzzy models. This paper has four sections. In the first section we introduce the notion of Fuzzy Relational Maps (FRM). This model was first introduced by W.B. Vasantha and Yasmin Sultana in the year (2000). We give the description of the problem under study in section two. In section three we use this model to study the problem. Final section gives the suggestions and conclusions based on our study.
